GRADE 6-8

## French Programme

The French department is committed to helping students develop an understanding and appreciation of French. “While the knowledge of any language has value, French is not only a global language but the mother tongue of many Canadians and an integral part of the Canadian identity,” (The Ontario Curriculum, French as a second language).

At Rowntree, French is taught at all levels, from kindergarten to grade 8. The children are exposed to varied activities that explore the value of learning French and master the skills in each of the four interconnected strands: Listening, Speaking, Reading, and Writing.

Contrary to common misconceptions, learning French is just as important as learning math or language arts. Sometimes people think that just because a student won't need French in the future, it's useless to acquire it now. But even though it might not seem like it's affecting them that much, it brings a lot of benefits. French stretches a student's thinking and helps them to do better in all other subjects. Just like math expands logic in the mind, a new language opens up activity in the brain, trains your memory, and magnifies skills.
